# Broadening Engagement

**The alliance is already working in a number of ways, including across Affinity Groups that allow HSRU institutional members to gather, share best practices, and collaborate based on position:**

- **President and Chancellors**
- **Provosts and Vice Presidents for Academic Affairs**
- **Vice Presidents and Vice Chancellors for Research**
- **Graduate Deans**
- **Institutional Research and Assessment**
- **Government Relations**
- **Communications**

**This summit is another way for collaboration to emerge and for those invested in the goals of the HSRU to work across all levels.**

**To achieve our goals we all must row in the same direction.**

# Power of the Alliance

**Working together allows us to achieve our goals across institutions**

**Building capacity at each institution comes in many forms:**

- **applying for grants together**
- **training graduate students who are future faculty members**
- **mentoring across institutions**
- **learning best practices and much more**

**Today is an experiment and our first chance to come together more broadly as an alliance and learn from each other. A major goal for today is to lay the foundation for working together to support our students and future work.**

**Thank you for joining us, for participating actively, and for sharing your feedback about how we can work together in the future.**
